**Location:** Syl Apps Indoor Turf – 51 William St, Paris

The Development League offered by Paris FC is a program designed specifically for our young players, regardless of age, size, previous experience, or ability. Our club prides itself on developing and running programs that allow young players to develop their soccer skills and love for the game in a supportive, safe, and fun environment.

#### **Program Highlights:**

- Group sizes will be capped to allow for optimum coach to player ratios.
- The focus of each session will be skills and development, with some small-sided games.
- Development training will be individual player focussed so that each player will have a ball at their feet as often as possible.
- Fundamental skills such as passing, receiving, dribbling, movement and FUN will form the basis of each session.
